

ACCEPT PAYMENTS 24/7

PaymentCollect™ for QuickBooks® Financial gives your customers the ability to pay their invoices online.

CHOOSE YOUR OWN PROVIDER OF

CREDIT CARD SERVICES FOR YOUR

QUICKBOOKS FINANCIAL SOFTWARE

POWERFUL PLUG-IN MORE OPTIONS

PaymentCollect is a powerful Add-on that allows merchants to quickly and easily process payments using other processors of your choice for QuickBooks Financial.

PaymentCollect's breakthrough technology embeds into QuickBooks Financial with seamless and simple processing. Each transaction is automatically posted back into QuickBooks's Financial. No double entry is required or end of day uploads to QuickBooks. Transactions are posted automatically in real-time and there is no change to the existing QuickBooks user experience.

PaymentCollect is a downloadable plug-in and service. Live and fast installation, setup, training and support will get you up and running using your choice of payment processing.

Clients love the convenience of paying online with PaymentCollect resulting in decreased collection times.

SIMPLE TO USE EASY INSTALL

Our seamless integration matches the same QuickBooks payment process that your accustomed to using today. Most importantly, as a merchant you're no longer limited to a single, proprietary payment processor or pricing option!

KEY BENEFITS FOR MERCHANTS

- Offers consumer on-line invoice payments
- Processes a single payment for multiple invoices
- Stores card information securely for future payments
- Real-time synchronization with QuickBooks

SAVE TIME AND MONEY

Quickly and easily process and apply payments to invoices and sales receipts using other processors.

INTEGRATED PAYMENT PROCESSING

SIMPLIFIED WITH THE SAME

NATIVE QUICKBOOKS EXPERIENCE

The easy to use interface works just like QuickBooks native mode so the experience is completely seamless for the merchant.

The screenshot displays a software interface for processing payments. At the top, there are fields for 'CUSTOMER' (Adam's Candy Sho), 'CLASS', and 'TEMPLATE' (Initial Product). Below this is an 'Invoice' section with fields for 'DATE' (12/15/2017), 'INVOICE #' (150), 'BILL TO' (Adam's Candy Shop, Adam Bradley, 1528 Kitty Bang Bang St, Fudge, CA 94555), and 'SHIP TO' (Ship To 1, Adam's Candy Shop, Adam Bradley, 1528 Kitty Bang Bang St, Fudge, CA 94555). A 'Payment Capture' window is overlaid on the invoice, showing a green 'APPROVED' status, 'Transaction ID: 18092239', and 'Approval Code: 50720A'. The interface also includes a table for 'QUANTITY' and 'ITEM C', an 'ONLINE PAY' toggle set to 'Off', a 'CUSTOMER MESSAGE' field, and a 'MEMO' field. At the bottom, there are buttons for 'Save & Close', 'Save & New', and 'Clear'.

PREREQUISITES
